

# CONGENITAL ANOMALIES

Volume 50 · Number 3 · September 2010

---

## CONTENTS

### Review Article

- 141 Formal genesis of the outflow tracts of the heart revisited: Previous works in the light of recent observations**  
Naomasa Okamoto, Naotaka Akimoto, Nobuto Hidaka, Shuneki Shoji, and Hiroshi Sumida

### Original Articles

- 159 Dietary exposure to low doses of bisphenol A: Effects on reproduction and development in two generations of C57BL/6J mice**  
Kenichi Kobayashi, Katsumi Ohtani, Hisayo Kubota, and Muneyuki Miyagawa
- 171 Cerebro-costo-mandibular syndrome: Prognosis and proposal for classification**  
Hiroyuki Nagasawa, Yutaka Yamamoto, and Yoshinori Kohno
- 175 Analysis of the harmonized growth pattern of fetal organs by multidimensional scaling and hierarchical clustering**  
Jun Udagawa, Akira Yasuda, Kanta Naito, and Hiroki Otani
- 186 Relationship between growth retardation and impaired glucose tolerance in hypothyroidal growth-retarded (*grt*) mice**  
Yoshie Tasaki, Yusuke Taguchi, Takeo Machida, and Tetsuya Kobayashi

### Case Reports

- 193 Low lying larynx**  
Revadi Govindaraju, Raman Rajagopalan, Rahmat Omar, and Shahizon Azura Mohamed Mukari
- 197 Severe Peters Plus syndrome-like phenotype with anterior eye staphyloma and hypoplastic left heart syndrome: Proposal of a new syndrome**  
Reiko Shimizu, Ryota Saito, Kenji Hoshino, Kiyoshi Ogawa, Takashi Negishi, Jiro Nishimura, Norimasa Mitsui, Makiko Osawa, and Hirofumi Ohashi
- 200 Isolation of the left subclavian artery from the pulmonary artery in a patient with CHARGE association**  
Anneke P. Bech, Jeroen op den Akker, and Pieter R. Matthijsse

### Letter to the Editor

- 203 Difficult pacemaker implantation. Detection of a wrong course due to sinus venosus type atrial septal defect**  
Habib Saadat, Sepideh Emami, Mohammad Hassan Namazi, Morteza Safi, Hossein Vakili, and Mohammad Reza Movahed
