

# CONGENITAL ANOMALIES

*Volume 44 · Number 3 · September 2004*

---

## CONTENTS

### Review Articles

**111 Tissue regeneration based on tissue engineering technology**  
Yasuhiko Tabata

**125 Thalidomide for the treatment of multiple myeloma**  
Yutaka Hattori and Toyotaka Iguchi

### Original Articles

**137 Novel alternative splicing of human FGD1 gene**  
Kumiko Yanagi, Tadashi Kaname, Yasutsugu Chinen, and Kenji Naritomi

**142 Analysis of fetal DNA from maternal peripheral blood by Lectin-Polymerase Chain Reaction–Single Strand Conformation Polymorphism**  
Masaru Shinya, Aikou Okamoto, Haruhiko Sago, Misato Saito, Yoshiaki Akiyama, Michihiro Kitagawa, and Tadao Tanaka

**147 Studies on protocadherin-2 expression in the human fetal central nervous system**  
Hiroko Omi and Michihiro Kitagawa

**156 Experimental studies on cervical and lumbar ribs in mouse embryos**  
R. Padmanabhan and P. Rajagopala Ramanan

### Commentary

**173 Comments from the Behavioral Teratology Committee of the Japanese Teratology Society on OECD Guideline for the Testing of Chemicals, Proposal for a New Guideline 426, Developmental Neurotoxicity Study, Draft Document (September 2003)**  
Yoshihiro Fukui, Makoto Ema, Michio Fujiwara, Hashihiro Higuchi, Minoru Inouye, Takayuki Iwase, Takahide Kihara, Tatsuya Nishimura, Akihide Oi, Yojiro Ooshima, Hiroki Otani, Mitsuhiro Shinomiya, Kozo Sugioka, Tsunekazu Yamano, Keisuke H. Yamashita, and Takashi Tanimura

**179 Corrigendum**

**J7 Society News**  
**Notice to Authors**  
**Activities and Announcement**
